Education

Kumaraguru College of Technology

B.E. Mechanical Engineering; CGPA: 8.1 / 10

Coimbatore, India

Expected May 2026

Experience

Zoho Corporation | *Project Trainee*

Oct. 2025 – Dec. 2025

- Implemented 3+ model attribution methods using SHAP and Captum frameworks.
- Automated feature-level analysis workflows, reducing manual analysis time by ~90%.
- Gained hands-on experience with Core Java and Python.
- Tech Stack:** Python, FastAPI, SHAP, Captum, PyTorch, JavaScript, Java.

iQube Innovation Center, KCT | *AI Engineer*

Sep. 2022 – Present

- Achieved around 50% improvement in latency and accuracy in Machine Learning projects using various ML techniques.
- Solved 220+ **LeetCode** problems covering arrays, trees, linked lists, recursion, and DP.
- Participated in 2+ CTF challenges, applying Machine Learning and Deep Learning concepts to solve ML CTF Challenges.

Projects

WelVision | *Python, OpenCV, Ultralytics (YOLO), Roboflow, Snap7, Tkinter, MySQL*

- Enhanced roller diameter estimation accuracy by 50% and decreased inference latency by 40% using optimized object detection pipelines.
- Built a model-assisted data labeling pipeline that eliminated 80% of labeling effort, improved defect detection accuracy to 85% after relabeling 10,000+ images, and delivered a GUI interface for operator interaction in manufacturing environments.

SGPA & CGPA Calculator | *Python, PyMuPDF, Streamlit, Together.ai*

- Built an application to extract academic data from result PDFs and compute SGPA and CGPA automatically, eliminating 100% manual result computation.
- Reduced per-result processing time by 95%, with the application used by 1,000+ students across multiple academic semesters.

KCT Admissions Automation | *Python, Flask, Google GenAI, PyPDF*

- Created a backend API to auto-fill student onboarding data from PDFs, reducing manual data entry time by 80%.
- Achieved 60%+ structured data extraction accuracy on 100 admission documents using LLM-assisted extraction.

AI Resume Builder | *Python, Flask, LangChain, Google GenAI, PDFLaTeX*

- Built an interactive system to generate ATS-compliant resumes using LLMs.
- Reduced resume creation time by 80% through LaTeX code generation using LLMs.

Technical Skills

Languages: Python, C++, Java, JavaScript | **Databases:** MySQL, Vector Databases | **Tools:** Git, GitHub

Frameworks: PyTorch, Scikit-learn, Pandas, NumPy | **Backend:** FastAPI, Flask, Streamlit, Django (Basics)

GenAI & Agents: LangChain, LangGraph, Agno | **AI/ML:** EDA, ML, DL, CV, NLP, LLMs, GenAI, Agentic AI

Certifications

Machine Learning Foundations – AWS Academy

Advanced Learning Algorithms – DeepLearning.AI

Unsupervised Learning, Recommenders & Reinforcement Learning – DeepLearning.AI

MySQL Problem Solving – HackerRank

Intro to Deep Learning, Python, Data Visualization – Kaggle

Blogs

Authoring technical articles on Web and AI Technologies at [Team Creo](#).

Achievements

Mahatma Gandhi Merit Scholarship Award
